

THINNERS

series 180

technical information

THINNER 100

Fast drying, suitable for vinyl series in high speed print. Advised for Vinylspeed.

THINNER 101 R - 102 M - 103 L

For vinyl series. 101 R (fast), 102 M (medium), 103 L (slow). Low odour, CE labelling not required.

RETARDER 104

Retarder for vinyl series. Low odour. CEE labelling not required.

THINNER 105 V

Strong thinner, advised for vinyl series. Suitable for print on materials subject to seeping out of plasticizers.

THINNER 106 S

Medium thinner for vinyl series. Low odour. It improves printability and self solvency.

THINNER 108

Medium-fast thinner for vinyl series. Low odour.

THINNER 201 R - 202 M - 203 L

Thinners suitable for polyurethanic, epoxy and nitro-cellulosic series. 201 R (fast), 202 M (medium), 203 L (slow). Low odour. CEE labelling not required.

RETARDER 204

Retarder suitable for polyurethanic, epoxy and nitro-cellulosic series. Compatible with vinyl series for a strong retarding effect.

THINNER 1016

Strong thinner, slow drying, low odour. Advised for fine details and process printing. Compatible with all inks series. CEE labelling not required.
